DIVISION OF OIL, GAS AND MINING  
DEPARTMENT OF NATURAL RESOURCES  
IN AND FOR THE STATE OF UTAH

---oo0oo---

IN THE MATTER OF TENTATIVE	:	NOTICE OF
APPROVAL OF THE MINING AND	:	TENTATIVE APPROVAL
RECLAMATION PLAN PERMIT	:	NO. M/023/012
APPLICATION SUBMITTED BY	:	
SOUTHWESTERN PORTLAND CEMENT	:	
COMPANY, JUAB COUNTY, UTAH	:	

---oo0oo---

THE STATE OF UTAH TO ALL OPERATORS, TAKERS OF PRODUCTION, MINERAL AND ROYALTY OWNERS, AND PARTICULARLY ALL PERSONS INTERESTED IN SECTION 11, TOWNSHIP 14 SOUTH, RANGE 3 WEST, SLBM, JUAB COUNTY, UTAH.

Notice is hereby given that tentative approval was given by the Division of Oil, Gas and Mining, on June 29, 1987, to Southwestern Portland Cement Company to conduct surface mining operations in Section 11, Township 14 South, Range 3 West, SLBM, Juab County, Utah.

The name of the proposed mining operation is the Nielson Sandstone Quarry and the person representing the company is Mr. David O. Lower, Vice President and General Manager, Southwestern Portland Cement Company, P.O. Box 21158, Salt Lake City, Utah, 84124.

Southwestern Portland Cement Company has fulfilled obligations under the Utah Mined Land Reclamation Act of 1975 (Section 40-8, UCA 1953 as amended) with specific reference to Section 40-8-13 and will employ the following mining and reclamation techniques on approximately 32 acres of federally-owned (BLM) land.

During Operations:

- 1) The projected mine life is 20 years. Open pit mining will initiate in the southern portion on the property and proceed in a north-northeasterly direction along the strike of the bed. Approximately one to two acres will be opened up each year.
- 2) Prior to each mining advance, topsoil will be stripped, stockpiled, and protected from erosion.
- 3) Pit run material will be transported by truck to the Leamington Cement Plant for processing.

Following Operations:

- 1) All equipment and extraneous debris will be removed from the mine site.
- 2) The crushed rock base of the ancillary access/haul road will be removed.
- 3) All disturbed areas, including roads, pads, and benches, will be stabilized and graded to a rounded configuration with slopes not exceeding 2(H) : 1(V).
- 4) Upon reclamation, the stockpiled topsoil will be spread over all disturbed areas. Additional soil material will be obtained from several alluvial deposits located on or near the mine site area.
- 5) Standard agronomic practices will be used to prepare the seedbed for drill and/or broadcast seeding. Disturbed areas will be reclaimed with native vegetative species.

Any person or agency aggrieved by this tentative decision is hereby requested to submit written protest within thirty (30) days of the date of publication to the Division of Oil, Gas and Mining, 355 W. North Temple, 3 Triad Center, Suite 350, Salt Lake City, Utah, 84180-1203, setting forth factual reasons for his or her complaint, and thereafter, at a time and place to be established, appear before the Board of Oil, Gas and Mining to show cause, if any, why this mine plan should not be approved.

DATED this 7th day of July 1987.

STATE OF UTAH  
DIVISION OF OIL, GAS AND MINING
